

MONAX for Real Estate

Make your contracts work for you

Contract Obligations Management Suite

Improved financial performance
Lowered transactional risk

Contracts

- Store digital records of contract terms, contract documents, accompanying data and fulfillment events
- Understand actionable obligations across all parties

Command Center

- Connect your business systems to contract milestones
- Monitor contract performance and receive notifications

Intelligence

- Prove compliance via blockchain-based immutable audit trails
- Create reports across your entire portfolio and contractual interaction history

How Monax Works

Digitized contract execution for digitally native companies

1
Record and manage contracts in one place

2
Orchestrate counterparty interactions and plug-in external systems

3
Prove compliant behavior based on tamper-resistant data
